PROJECTS

BulkMailer — Full-Stack Web Application | *Node.js, Express.js, MongoDB, Nodemailer*

GitHub: github.com/premkumar29820/bulkmailer-project | Live: bk-frontend-pi.vercel.app/login

- Built a full-stack bulk-email platform to solve manual, repetitive email outreach for small teams.
- Engineered a Node.js/Express backend with MongoDB for contact storage and a Nodemailer/SMTP-based mailing workflow.
- Deployed the backend service to production and validated end-to-end delivery .

Nostra — E-Commerce Website | *HTML5, CSS3, JavaScript*

GitHub: github.com/premkumar29820/-Nostra---E-commerce-Website- | Live: -Nostra---E-commerce-Website-

- Developed a fully responsive e-commerce storefront to practice interactive front-end architecture.
- Implemented dynamic product listings, a shopping cart, and client-side form validation using vanilla JavaScript.
- Deployed a live demo, ensuring cross-device responsiveness and consistent UI behavior.

The Crew — Team Portfolio Website (Team Lead) | *HTML5, CSS3, JavaScript*

GitHub: github.com/premkumar29820/The-Crew-group-project | Live: The-Crew-group-project/

- Led a five-member team to plan, build, and ship a multi-page collaborative portfolio site.
- Coordinated task distribution and merged individual contributions using Git/GitHub version control.
- Delivered a cohesive, responsive design across all team-authored pages.

Weather Application | *React.js, Tailwind CSS, Axios, Context API*

GitHub: github.com/premkumar29820/weather-Report-Application | Live: weather-report-application-seven.vercel.app/

- Built a real-time weather lookup app to practice asynchronous data fetching and state management.
- Integrated a public weather API via Axios and parsed JSON responses to update the UI dynamically.
- Used React Context API for global state management across components.

Blog Portfolio | *React.js, Firebase (Auth, Firestore, Hosting)*

GitHub: github.com/premkumar29820/blog-project | Live: blog-project-orphin-kappa.vercel.app/

- Developed and hosted a personal blog platform with secure content publishing.
- Implemented user login/registration with Firebase Authentication and persisted posts in Firestore.
